

Hydronic 10 Coolant Heater

Espar Heater Systems

Espar's Hydronic 10 coolant heater is a powerful, compact and light weight heating system. It is typically used to provide engine, fuel & hydraulic pre-heat for off road equipment. It is also suitable for providing both engine and supplemental cabin heat for boats and buses.

Features & Benefits include:

- Low power & fuel consumption through 4 heat levels
- Driver & passenger comfort & safety
- Windshield defrosting capabilities
- Quick pre-heat without electrical plug-ins
- An alternative to costly idling
- Self-Diagnostics
